Career and achievements

Head cashier at Jumbo Diemen (grocery chain)   30/07/2009 until 28/07/2014
   Not only worked at the cash register, but also helped
   out at the bakery and resupplying the store.

Cashier at HEMA Amstelveen (department store)   19/11/2013 until 01/05/2014

Teaching Assistant for the course Web technology   01/01/2014 until 31/01/2014
                                                           01/01/2015 until 31/01/2015
                                                    And 01/01/2016 until 31/01/2016

   Being a student assistant at the VU is a privilege only
   a few students can make use of. You need to excel at
   the course. I really enjoyed the experience and learned a lot.

Tridion upgrade   25/05/2015 until 31/08/2015
   Over a period of a few months, the infrastructure
   behind the VU website had to be upgraded. I was
   hired as one of the students to oversee this process
   and to provide feedback on the changes that happened
   to the websites themselves.

Salesperson at BelCompany Amstelveen   01/05/2015 until 05/12/2015

Teaching Assistant for the course Computational Thinking   01/09/2015 until 01/11/2015

Bachelor's degree website update at the VU   23/11/2015 until 18/12/2015
   Over a period of a month, the VU had a project to
   redefine their bachelor's degree website. I was part
   of this project with 3 other students. We build the new
   webpage at the back-end, using SDL Tridion.

VUnet Editor   18/12/2015 until now
   Vunet.vu.nl is the web portal that students and employees
   from the VU use to communicate within the VU.

Ancillary Activities

Volunteer at the Wintermarkt Obdam
   As a volunteer at the Wintermarkt Obdam, I made sure that
   everything ran smoothly and that all the visitors were properly
   greeted at the door.

IT language experience

- HTML/CSS
- Javascript
- C++
- Python
- Assembly language
- SDL Tridion
